January 14, 2021

Dear Wallingford Residents:

As of today, individuals who are 75 years of age or older can now register to obtain a reservation for a Covid-19 vaccination. There are multiple ways this can be done. Individuals can register online at hartfordhealthcare.org/vaccines or can call the vaccine hotline at 860-972-4993. Individuals can also go to mychartplus.org if there is currently access.

The Connecticut Department of Public Health will be releasing details for support services to assist those ages 75 years or older with the registration process the website is as follows: <https://portal.ct.gov/Coronavirus/COVID-19-Vaccination---75-and-older>. Though it remains unclear at this time, primary care providers across the state may be conducting direct outreach to their patients as part of this effort.

The Wallingford Health Department will also be offering vaccination clinics for those 75+ based on supply of vaccine provided to the Town in the coming weeks.

While appointments may not be available immediately at this time, please know that the State and the Town are continuing to enroll providers and staff, and we expect that access to appointments will grow, particularly for priority populations in the coming weeks.

Sincerely,

Stephen A. Civitelli
