3/19/2021

Dear Wallingford Residents:

As part of the continued rollout of vaccinations in the State of Connecticut the Wallingford Health Department has been designated the Homebound Coordinator for residents of Wallingford. The State of CT DPH has setup a website for those who are homebound and are seeking vaccination to register which is as follows:

<https://dphsubmissions.ct.gov/homebound>. There are two criteria that are required to be met to qualify for a homebound vaccination.

- Physically unable to go to a vaccination clinic or mass vaccination site with or without assistance.
- No history of anaphylaxis or severe allergic reaction requiring the use of an epinephrine auto-injector (eg. EPI pen)

For residents who are unable to register on the website for homebound vaccination can contact the Wallingford Health Department directly (203-294-2065) for registration on the town's homebound vaccination program. The Wallingford Health Department will also in the coming weeks begin to setup mobile clinics in the community focusing on vulnerable populations and those who are uninsured/underinsured as more vaccination operators are available in town. The following are facilities that are offering Covid-19 vaccination within the town:

Hartford Healthcare at Oakdale Clinic site

<https://hartfordhealthcare.org/health-wellness/covid-vaccine/schedule-your-vaccine#>.

Access Center at 860-827-7690 or toll free at 833-949-5721 to register

Walgreens Pharmacy, 284 South Colony Road, Wallingford CT 06492

<https://www.walgreens.com/findcare/vaccination/covid-19>

Vaccine Finder is a website that shows all clinics with availability within a geographic location of your choosing by zip code and directs individuals to the appropriate coordinating websites. <https://vaccinefinder.org/search/>

The Health Department will continue to provide updates to the community as information becomes available.

Sincerely,

Stephen A. Civitelli
